

*To make sure you have access to a balanced, Christian perspective on how COVID-19 is impacting the economy and the world, we just launched a new podcast.*

Hello karen,

What we are witnessing now is likely the most catastrophic economic event of our lifetimes, but you do not have to go through it alone. In the coming weeks and months, your Crown family is here to walk beside you to ensure you have the knowledge you need to make wise, biblical decisions for your finances and your family.

In the first episode of the Crown Podcast, Chuck Bentley interviews investing expert, Vince Birley. Vince discusses the three lens through which he's viewing the economy during the COVID-19 crisis: how businesses are being impacted, how markets are reacting, and the government's response.

I'm sure you're tired of sensationalized news and conflicting headlines. We are, too. That's why this podcast is clear, to the point, and above all else — rooted in God's Word. I hope you'll listen to it today and share it with anyone you believe it will help.

You can listen to the [first episode here](#). And, if you want more tools to help you navigate your way through this crisis, visit our [coronavirus page](#) for the latest resources, guides, videos, and more.

God Bless,

Calvin Dillinger
